Commissioner for Patents

Dear Sir:

This is in response to the Office Action mailed June 29, 2006 which included an Election requirement. The Examiner has required an election of species between urea/urethane polymers wherein (1) the polyether polyol is derived from tetrahydrofuran and one or both of alkylene oxide and cyclic acetal or (2) the polyether polyol contains only oxypropylene or oxytetramethylene groups.

Applicants elect the species of urea/urethane polymers wherein (1) the polyether polyol is derived from tetrahydrofuran and one or both of alkylene oxide and cyclic acetal. Claims 1-14 and 17-19 are readable on the elected species. This election is made without traverse.

Favorable action on the merits is respectfully requested.

Respectfully submitted,
